

Silicone Self-Fusing Rescue Tape® as reviewed by *Aircraft Maintenance Technology*, *SEA Magazine*, *Northwest Yachting*, *Latitudes & Attitudes*, and many more- they all agree Rescue Tape is the one product everyone should have!

Rescue Tape

- Is Self-Fusing- forms a SINGLE fused piece of silicone when applied- never unravels
- Has 700 PSI Tensile Strength
- Insulates at 8,000 Volts per 20 mil layer
- Withstands 500° F of continuous heat
- Remains flexible to -85° F
- Stretches an amazing 300%

Rescue Tape

- Creates a Permanent Air-Tight, Water-Tight Seal in seconds
- Never gets gummy, gooey, or sticky like regular tapes - No messy cleanup
- Has a long shelf life. No special storage precautions for temperature needed.
- Is extremely versatile
- Fuels, Oils, Acids, most Solvents, Salt Water, Road Salt, UV, and Ozone resistant

Rescue Tape is versatile and has unlimited uses. Here are a few ideas:

- Keep it aboard your vehicles and equipment for emergency hose repairs
- Seal leaky hoses, pipes, tubing, lines, & fittings
- Neaten up lines and extension cords in stowage
- Wrap tools and handles for a GREAT non-slip grip with only one application.
- Wrap wiring harnesses and custom split looms
- **Waterproof electrical connections, RF fittings**, cables, and terminals
- Make an emergency fan belt
- Make emergency O-Rings
- Wrap hydraulic fittings and other exposed metal connections to help prevent corrosion
- Can be applied over wet, dirty, or even oily surfaces
- Use as a tourniquet or emergency wrap over bleeding injuries
- Wrap it around ANYTHING you want secure, never leaves any sticky residue

Rescue Tape is sold in a 2-pack, containing your choice of colors for \$24.95

Each Standard Roll is 1" x 20mil x 12'

1" Tape available in seven colors: White, Black, Red, Yellow, Green, Blue, and Clear.
